Environmental Responsibility Policy

Papirus Indústria de Papel S/A, based on its Business Philosophy, affirms its culture of transforming, using recycling in a smart way and respecting the environment. Therefore, it is based on the following principles of sustainability and environmental responsibility in product, processes and services related activities:

-  Uses certified and controlled virgin fibers, as well as promoting recycling, using pre- and post- consumer recovered materials.
-  Adds raw materials to products from environmentally responsible suppliers, pursuing renewable sources.
-  Protects the environment, preventing pollution by managing environmental impacts and aspects related to water effluents, solid waste and air emissions.
-  Pursues improvement of the bottom line, continuously improving processes and services setting objectives and goals to meet customer, shareholder and community expectations.
-  Trains, creates awareness and encourages professionals towards environmental preservation initiatives.
-  Complies with regulations in force applicable to the industry.
